# **Lateral Plungers** • with plastic spring and pin 22150.0206

#### **Product Description**

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

#### **Material**

Spring

plastic

Pin

Steel, case-hardened, blackened

#### Assembly

It is recommended to moisten the body. Installation by pressing in. Formula for calculating the center distance for the mounting hole:  $I_0 = z/2 + w + x$ , I<sub>0</sub> = center distance, y = workpiece height, w = workpiece length, x = coordinate dimension, s = stroke, z = stop diameter Calculation dimension x: y greater than or equal to  $I_2 - d_2/2$ , then  $x = d_2/2 - s$ (value x for this case see table) or

y smaller than  $I_2 - d_2/2$ , then x =  $d_2/2 - s - [(I_2 - d_2/2 - y) * 0,123]$ 

## Characteristic

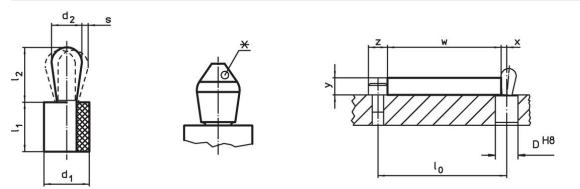

Version heavy spring load = green spring

More information

Notes

This is a discontinued article.

# Drawing

\*some sizes (see chart) have a deviating pin shape

# Compliance

## **RoHS compliant**

Compliant according to Directive 2011/65/EU and Directive 2015/863.

#### Does not contain SVHC substances

No SVHC substances with more than 0.1% w/w contained - SVHC list [REACH] as of 27.06.2024.

#### **Does not contain Proposition 65 substances**

No Proposition 65 substances included. https://www.P65Warnings.ca.gov/
