Height-Adjusting Elements · orienting

25120.0242

Product Description

For levelling of machines and installations when bearing surfaces are not parallel.
For vertical adjustment, the self-locking height-adjusting elements are fitted with a fine-pitch thread. All elements have a throughgoing bore for fastening purposes. A turn-out lock serves as height limit for the maximum adjustment height.

Material

- Heat-treated steel, zinc-plated by galvanization, chromalized
