# **Hinges** • stainless steel, elongated on both sides

25162.0005

## **Product Description**

These hinges from stainless steel are characterised by the compact design.

The hinge pins are form-fit pressed and are therefore suitable for use in case of strong vibrations and shocks.

Appropriate friction pairings of the hinge components and the lubrication reduce abrasion to a minimum.

The version with centering steps avoids lateral slipping under high loads and thus protects the fixing screws from unacceptable lateral forces.

#### Material

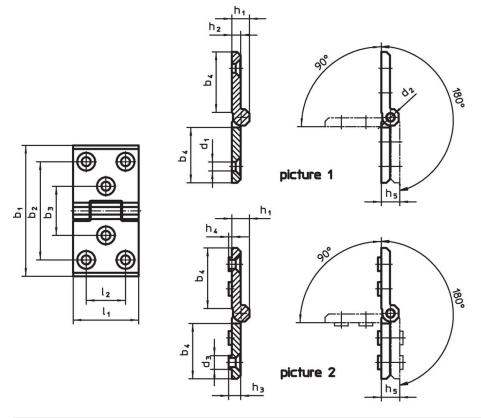

#### Body

· Stainless steel 1.4405, dull blasted

#### Axis

· Stainless steel
