CATALOGUE STANDARD PARTS N7

ERWIN HALDER KG

MADE IN GERMANY

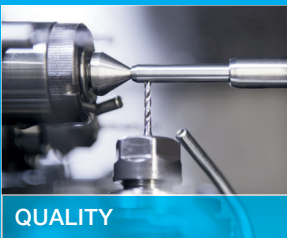

We have been serving customers in industry and retail as a reliable and proficient partner for more than 85 years. The latest chapters in the success story of this family-owned and operated business are now written by the family's third generation. Never wavering from its original mission statement, the company has remained in charge of the entire process chain – from development to production to global distribution. Remaining true to the company's original calling as instilled by our founder, we still strive to offer our customers products and service of unrivalled quality.

KNOW-HOW

Quality and service ensured by the manufacturer

Our long years of experience have put us in a position that allows us offer you the advice and expertise necessary to implement the custom solution that fits your needs best! Our continually growing standard selection currently includes more than 13,000 items.

QUALITY

Your partner for all types of scenarios

You cannot make high-precision products without relying on high-precision production equipment. Our use of cutting-edge machine tools made by renowned manufacturers and operated by highly trained specialists is your guarantee for quality products that satisfy the highest standards.

SERVICE

Delivery promise

All orders received by 4:00pm will leave our factory on the same day.

Delivery dependability

We deliver 98.4 % of all orders received by the confirmed date.

EXPLORE SOMETHING NEW

On the following pages we show the whole variety of new and innovative products of our company. With the new developments and extensions we have focused on your requirements. Tailor-made products for your applications are developed in close dialogue with you.

Get surprised! Browse through this overview of our new parts and find more detailed information about the products in our new catalogue or visit our online shop at www.halder.com
